General Information

The course is held by Prof. Roger Coulombe, from the Utah State University (USA). You will be individually mentored for a week and you will be provided with the practical skills and tools to translate your research ideas into a competitive grant application.

You can sign up for the course from our website <https://formazione.izsum.it>

Course Objectives

Students will learn to:

- Construct a compelling and focused research plan with well-formulated hypotheses, rationales, specific aims, and long-range research goals;
- Understand the critical elements of a persuasive research proposal;
- Present a sound research plan that accurately reflects the ideas and directions of the proposed research activities;
- The Budget: develop and justify a budget for proposed research activities;
- Avoiding common grant writing mistakes;
- Understand the peer review process from an "insiders view" and to formulate your grant application accordingly;
- Establish a successful and independent research career, and identify appropriate funding sources.

In course practicum, students will write their own research proposal to a scientific funding agency.
